It's time once again to introduce the San Francisco Bay Area Chapter's newly elected officers. HITHER AND YON WITH DISTRICT 12 MEMBERS

A FIRST FOR AN LP GAL, WE"RE SURE!! CONGRATULATIONS TO GAIL SELBERG, SFBAC Treas., who has passed all her tests, and now is a full fledged CPA (Certified Public Accountant). GAIL has worked and studied hard to reach this goal. She works for a firm in Oakland.

Enjoying her new job, and environment is JOY CAMPBELL, who is working for the Park Service at Lassen Volcanic National Park. See the last newsletter for job details. Cooking continues to be one of her hobbies, and she happily reports successfully making cherries jubilee recently for the superintendent and his wife when they were dinner guests.....

TAMMY DETRO, SFBAC, is getting along well after her July surgery. She wears a cast, but with the aid of crutches gets along well, and hasn't missed many activities. Dad LaMar and Mom Barbara are developing some new muscles as they pitch in when TAMMY gets tired...know TAMMY would love hearing from all of the teens..and everyone else. TAMMY is DISTRICT 12 TEEN CHAIRMAN.

After 3 weeks home in Etna, MIKE HART headed back to LA for a check-up. HOPEFULLY, MIKE is now out of those casts he's been in-since late February. MIKE'S a Teen, too.

RENEE WITTMEIER, Stockton, is spending part of the summer visiting her family in SOUTH DAKOTA.....NANCY EVANS, CANADA, has been the houseguest of LINDA AND BOB BURGAN, SFBAC, for a few weeks and attended a number of SFBAC functions. She also spent a week with DEBBIE DIXON, LAC. NANCY will be attending the University of Washington, Seattle, this fall. She plans to be a dental technician. Urging on to this profession is DR. MICHAEL COHEN, dentistry professor, and a member of the LPA MEDICAL ADVISORY BOARD...

During February, thirty-one attended the SFBAC election meeting. Elected were: President, Bob Burgan; Vice President, Peter Norman; Secretary, Connie Cummings; and Treasurer, Gail Selberg. Also during the month, the SFBAC discussion group met at the Norman's, and a parent-teen little little gathering was held at the home of the Welches in Oakland.

During March, SFBAC held their regular meeting in San Leandro, while on the 9th a bowling party was held with the Golden Gate Tip Toppers. Then a social at the Carlino's. The chapter's annual banquet was held on March 39th in San Francisco.

ENTERTAINERS — Tom Tomato and Bobby Poe provided entertainment for the Carrier of the Year banquet presented to top carrier boys for The Independent. They are well known in the circus world and have appeared at state fairs, on tv and at many other entertainment spots in the West.

A special treat was the entertainment by clowns Bobby Poe and Tommy Tomato. The duo are well-known in the circus world and have appeared on television, at state fairs, Reno and of many hotels throughout the area, doing a comedy routine of mirth and magic.

San Francisco Bay Area Discussion Group (L to R) Bob East, Jackie East, Peter Norman, Bob Burgan and Linda Burgan.

Peter Norman has started a problem-solving discussion group which meets every other week to share and express thoughts and feelings which little people have in common and to discuss frustrations and difficulties which arise out of everyday experiences. The first of these meetings was held at the Norman's in Menlo Park, and alternates between there and the East's, in Haywood. Peter, who conducts the sessions, feels there is a genuine interest growing in this area, and the turnout has been very good. It is open to the adult members as well as the teens and Parent Auxiliary. A good feeling, and one of trust and satisfaction has been generated by these meetings and by those in attendence. Peter suggests that possibly more groups like this could be started in other areas.

WHO'S ON FIRST . . .

By Denise DiAnne NOVEMBER 1974

With a moveable first base, it was rather a problem being serious about the softball game between the GGTT and the Little People of America (LPA). It seems some wise guy (we suspect Randy Petrash) got the bright idea to tie a string around our makeshift cardboard base and, would you believe, the players actually chased that elusive base so they could score. By now you should be aware that it was a very non-competitive and fun game, but wait til next year!

Neno Carlino's two sons, Anthony and Jack of the LPA side are two young men who bear watching come next year for the serious game. They were right in there fielding like pros knocking one after another of the Tip Toppers off base and even off balance, expecially Linda Vogel, whose faux pas was duly recorded on Channel 7.

There were both men and women on each team and it seems they fared equally at the batters box with the men but could use a little more practice in the field. Ann Ferguson of LPA almost but never did quite pick up on those long hard hits to outfield. She has bruised fingers to prove it. Neno of LPA did a great job of pitching and so did Becky Baxter on the GGTT side.

It was a great day for any kind of outdoor activity with about 40 friendly LPA and GGTT's literally having a ball enjoying the hot sun, picnic food and games.

Pictured are a group of LPAers from the San Francisco Bay Area Chapter on the Labor Day Weekend camping trip in the historic gold country of California.

Top row L to R: Peter Norman, Kathy Norman, Rich LaRussa, David Norris, and John East.

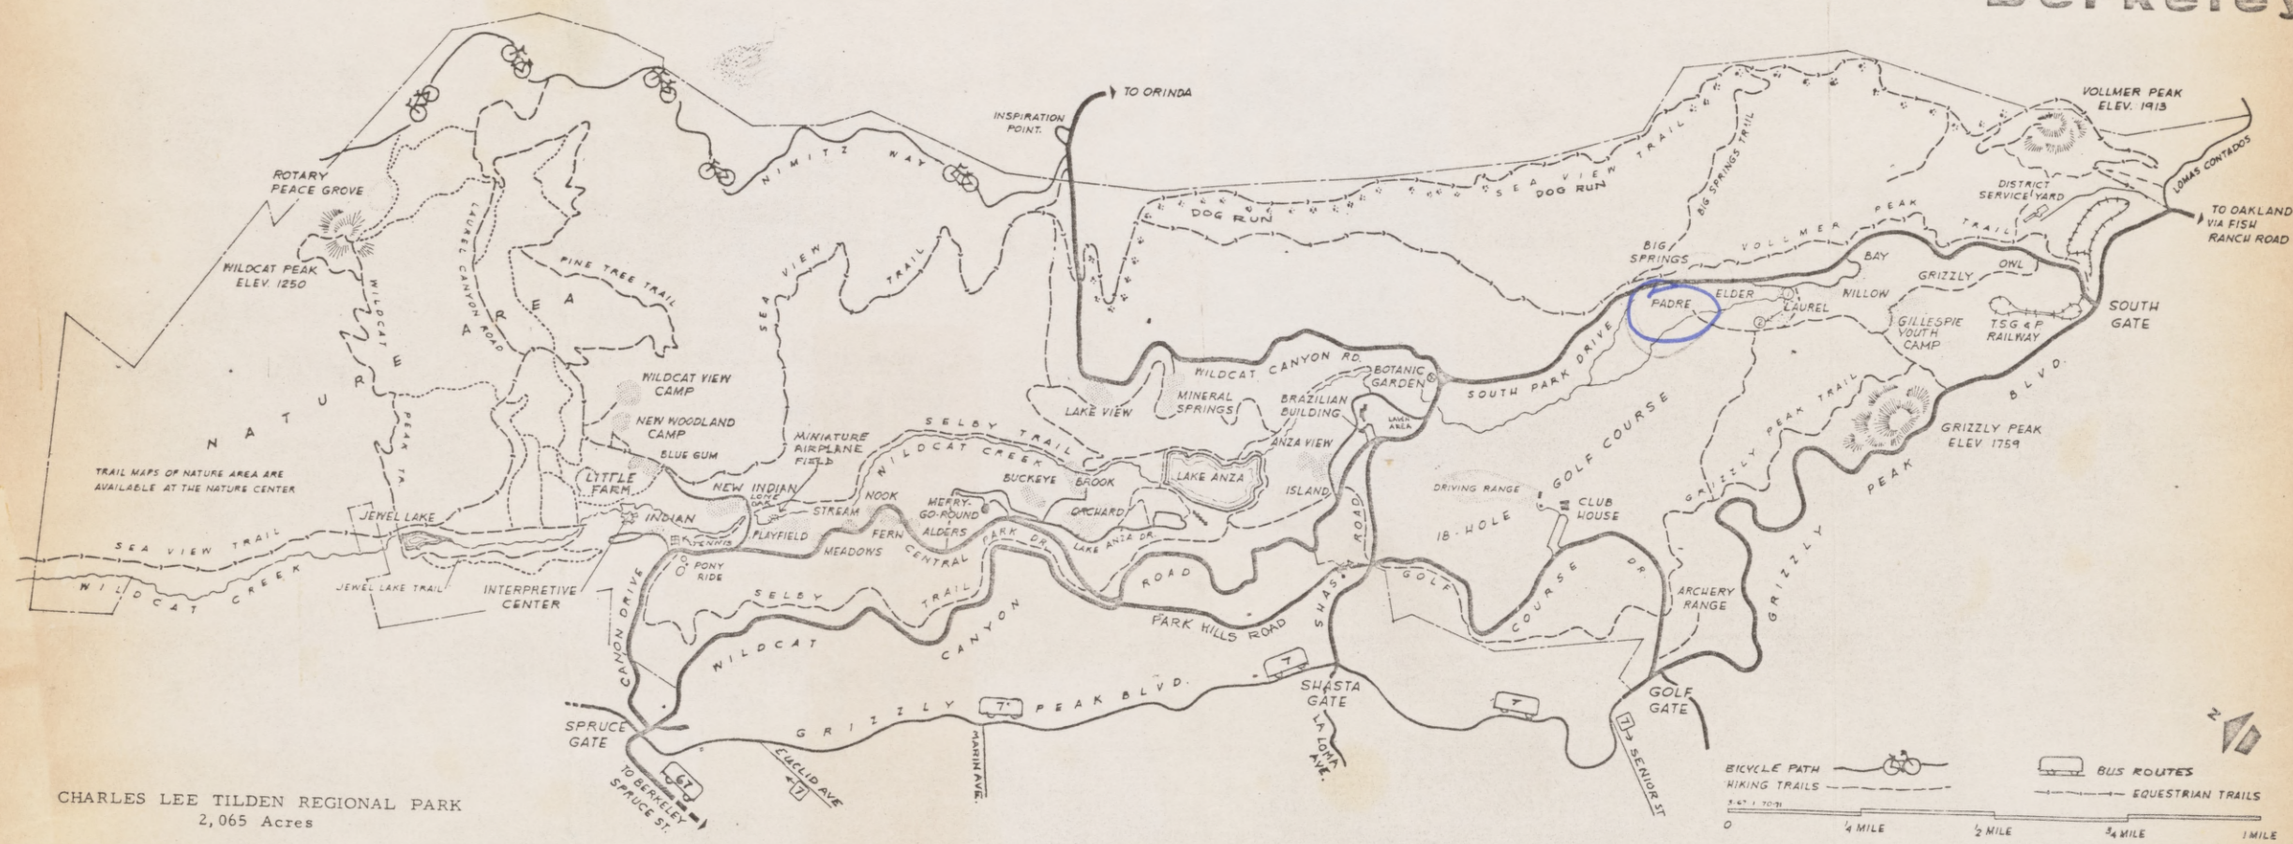

Bottom row L to R: Harriet Stickney, Al Stickney, Ann Fergason, Carol Belknap, and Connie Cummings.

SAN FRANCISCO BAY AREA CHAPTER (SFBAC): 15 SFBAC members enjoyed a terrifice camping weekend at PINE ACRES near PINE GROVE. It was the last camping weekend of the season there, and what a BEAUTIFUL WEEKEND IT WAS....Swimming, fishing, miniature golf, and the game room were enjoyed by all. Saturday lunch and dinner were delicious, with the planning and most of the buying and cooking being done by ANNE FERGUSON, AND CAROL BELKNAP. They were ably assisted by LLOYD BELKNAP and RICHARD LA RUSSA. The group plans to go again next year, and TAMMY DETRO & MICHELE O'ROURKE hope more teens decide to join the gang.....RON HACKL, HARRIET & AL STICKNEY appeared on KQED tv. SEPT. 3, and there havaebeen reruns. There have been a few inquiries received....DISCUSSION GROUPS continue to go well..

CHARLES LEE TILDEN REGIONAL PARK

Berkeley

CHARLES LEE TILDEN REGIONAL PARK
2,065 Acres

Within Tilden Park are two of the highest points in the East Bay Hills - Vollmer Peak at the southern tip of the park (1,930') and Wildcat Peak in the Northern sector (1,250'). Wildcat Creek, flowing through the center of the park, feeds both Lake Anza, Tilden's "mountain lake in town," and Jewel Lake, a haven for waterfowl, turtles and other aquatic life. Tilden's stands of eucalyptus and pine, its dense woods of bay, madrone, liveoak and buckeye, its open grass and chaparral hillsides provide a home for innumerable species of birds and animals.

Exploration of the general territory of Tilden Park began in 1772, when Captain Pedro Fages and Father Juan Crespi, of Monterey, traveled along Wildcat Creek. Their diaries recorded a meeting with Indians who inhabited the area. In 1776, the De Anza expedition toured the same region.

The park is named for Major Charles Lee Tilden, first president of the East Bay Regional Park District Board of Directors and one of the District's founders. It is one of three of the oldest parks in the system and the most intensively developed. Its several major features include a swim complex at Lake Anza, an 18-hole golf course (leased facility), a beautiful antique merry-go-round, a pony ride, the "Little Farm" with domestic animals, a native plant Botanic Garden, a miniature airplane field, and a miniature steam railway which carries passengers. An unique nature interpretive center will be built soon.

SATURDAY NIGHT BOWLING...
By Phyllis Amstein

This is the night we all had been waiting for - the Golden Gate Tip Toppers versus the Little People of America. You know, I never did find out who did better. For a long time these two groups have been talking about getting together for some type of joint activity and we finally did it. Speaking for myself, I had a fantastic time. Everyone else seemed to be having an equally good time.

We met at Serra Bowl shortly before 9 PM and soon we were on our way to beating down the pins, late-comers joining right in. I was so pleased with the turnout. We had so many people there I didn't even get to meet some of the newcomers.

A great big hearty thanks to Martine for having us all over to her place after bowling so we could get to know each other a little better. We were joined by Maryjane, Bob, Neno from the Little People. The end result is we are going to get together again real soon.

August 11 . . . Grand Slam Day For Exchange

RALPH and ANNA KIRK are to be commended for the excellent job they did on the "Softball" project It took a lot of work, but it paid off in many ways. It raised money for both the Little People and our Club but it also provided a day of fun and entertainment for adults and children alike. However, I feel one big asset of this project was the fact we got Exchange before the public eye. Now we need more good projects of this type to show the people what Exchange is all about.

Exchangites who were not in attendance at this community project really missed an exciting time, at the game and after at Straw Hat Pizza where we all got a chance to talk to the Little People and find out how hard they are trying to prove that they are great little people and not just something to be pointed at and laughed about or pitied.

Incidently, the "Stumps" stomped us 19–8. For the last two innings the "Stumpetts" played the Exchange Wives. Oddly enough the gals helped our score.

It was sure good to see a couple of new faces at the last meeting. Robert Smith was introduced by Mrs. Harriet Stickney and Gregg Spitler was introduced by Mr. Peter Norman. Hope to see you at the next meeting.

At our last meeting we had a guest speaker presented by Mrs. Kathy Norman. I think at the end of the discussion there was a lot to be gained. by the lot of us.

There was a discussion group meet at the Bob East residence on May 16. Alot of things were discussed and some questions were answered for many.

Miss. Ann Fergason and committee will be getting together shortly to put the summer schedule of activities together now that they somewhat know the Baseball schedule for practice and the games. This schedule of activities will be presented at the next meeting.

For those of you who didn 't go to the May 18th game in Newark, you missed a real good game. At one of the innings our good ole pitcher through out the ball, only the ball turned out to be a BIG grapefruit painted white to look like a baseball. The batter missed the first pitch and the catcher almost got it, but as luck would have it he didn't. The pitcher through it a second time and boy what a big splash, Batter, Bat and all.

By the way we won the game. Score 24 to 23.

For those of you who didn't get tickets to sell for our next game please contact Ron Hackle.

Here is a list of some of the games to be played within the next coming months.

1. June 1--ASHLAND [redacted] Little League.
2. June 8-- is unknown as yet.
3. June 15--Hayward West National.
4. June 28--Run, Run, Jones. This one is a celebraty game I believe played at the Cal State in Hayward.
5. June 29--San Quentin. No ladies are allowed to play in this game.
6. July 13 or 20-- Date isn't certin yet. Union City Lions Club.
7. Sept 20 or 21--Date isn't certin yet. Hayward City Fire Department.

Our next meeting will be held at the hayward meeting place. Directions are as follows--

Coming across the San Mateo Bridge.

Follow the road straight up to Foothill Blvd. That intersection has lights running the full length. Go straight through the intersection. You will then be on the Foothill Expressway. Stay in the left lane and you will be able to make a left hand turn onto B street. Four blocks from the foothill junction Park in the municipal parking lot #2 on the right hand side of the street. You are now parked behind bank.

Coming from the San Francisco or The North Bay Area-

South on 580 (Hayward-Stockton interchange). Take Hayward exit staying in the most right lane. You will then be on the foothill Blvd. Follow foothill blvd to B street, make a right hand turn onto B street. As you turn onto B street the Great Western bank will be on your right hand side of the street. Follow B street down to the municipal parking lot #2. As you enter the parking lot you will continue straight ahead until you come to the end and then you will make a rignt turn and you will then be behing the bank.

A cheerful note--

Mary Jane Carlino is doing nicly. She is now sitting up and eating her meals up. She is having theropy treatments on her legs while still in bed position. Shouldn't be to long before she's up and walking about.

Little lady making big dream come true

TAMMY DETRO, 16, HAS BIG AMBITIONS AS AN ACTRESS

By GLENNDA CHUI

SAN LEANDRO — Tammy Detro lives in a big world.

At 16, she looks up at the world from a height of only 30 inches.

But you can bet that the only thing small about Tammy is her size. Her ambitions are as big and flashy as the world of show business, and unlike many aspiring actresses, she's making her dreams come true.

The San Leandro High sophomore has a co-starring role in an upcoming children's television show. And years ago she played a monster on a television movie.

Tammy plans a career in acting and right now she's eying a part on "The Streets of San Francisco." But she says acting wasn't always her ambition.

"I didn't really have a desire to do it — I kinda grew up with it," she says.

It all started when she met her godfather, Felix Silla, after joining Little People of America at the age of 5. Silla is the actor who played Cousin It in "The Addams Family."

In 1971, Silla suggested that Tammy try for the monster role in "Don't be Afraid of the Dark," a television movie. She was accepted for the part after an interview with the producer.

She played "a cross between a mole and a bear," and the role was an introduction to some of the less glamorous aspects of show biz.

"My part entailed dragging heavy objects upstairs under hot lights," Tammy recalls. "To make things worse, my costume was a stuffy fur suit. I also had to wear a whole-head latex mask."

But the two days of filming at Burbank Studios in Los Angeles also meant meeting new friends, including the cast of "The Waltons" and Jim Hutton of "Ellery Queen."

Work on the children's show started in July, and shooting should start soon, Tammy says. Once filming begins, she'll work an eight-hour day once a week, spending three of the hours studying with an on-the-set teacher and another hour resting.

"Acting is not easy work," she says. "You earn every buck you make."

"I know show business isn't all it's cracked up to be. There are bad times as well as good.

"But I'd rather be in show business than do something else that's a bore."

When she's not working, Tammy attends classes at San Leandro High. She has no problems getting around school, she says. Teachers let her out of class five minutes early, and friends help her climb staircases and get into chairs.

She's taking drivers training with the rest of her class, and hopes to drive a modified Datsun when she finishes the course.

As for her height, Tammy says it doesn't bother her, but it sometimes bothers other people.

"Because of my height, it takes most strangers a while to get used to me, but I don't mind that," she says. "What irks me is when they treat me special."

Through organizations like the Little People of America, more people are becoming used to people her size, she says. She is now teen chairman of Little People for a district that stretches from Hawaii to Nevada.

The organization holds meetings, outings and benefits for those who have trouble adjusting to their handicaps.

"There are different types of dwarfism, and some people have a harder time of it than others," Tammy says. "Little People has foundations set up for people with back problems, which are common, and to study the different types of dwarfism."

Tammy gives Little People and her mother credit for helping her adjust to her size.

"My mother didn't mollycoddle me," she says. "She never put anything down to my size, so I had to adjust. That's the best way.

"I live in a big world. You just can't live in a small world."

AUSTRALIA: In direct contrast to present day hustle and bustle of city life, there still exists ample evidence of the early history of this young country. Australia's first settler, the Aboriginal, famous Ayers Rock, and the Kangaroo, are all typical of both the past and the present outback scenes throughout this vast continent.

WINNERS AND LOSERS – GGTT members met the "Stumps" (representing the Little People of America), June 22, 1975. The little guys won – but what can you do against a ten-person team?

THE LONG AND THE SHORT OF IT

Sunday, June 22 proved to be a fantastic day to lose a softball game – which is exactly what we did! The GGTT turned out in large numbers to donate their time and talents(?) for charity. Our captain, Joe D., had a hard time assigning people to the right position as no one had any particular talent, but everyone was willing to try their best. The men played the first three innings and started the game with some runs. Bill Kasper scored in the first innning and Mark Marquardt scored in the second inning. We were ahead until Kurt Irmiter missed a throw from (then) third baseman Bill Kasper, allowing second run for Little People, which tied the game. But our Becky Baxter came through for us with a run in the third. In the fourth inning, Kurt hit in Russ Takle and Bill Kasper. First out was our new vice president, Kris Flood. (Our girls got into the action during the fourth and fifth innings.) Lynn(?) struck out and I made the third out because I was so surprised when I hit the ball that I almost forgot to run. The ball beat me to first base! Score at the end of four – 7 to 5 in favor of the Little People. Denise D'Anne made a spectacular catch at home plate to make the third out in sixth inning, but got hit in the head in the process. (Some people really get involved!) Our team captain, Joe D., hit a grand slam in the sixth, and Becky B. hit a triple to score John Buck. Russ T. hit a home run and enabled Becky B. to score which tied up the game.

Bill K. scored in sixth, which made the score 13 to 12 in our favor. Now the stands came alive and we cheered on our team members because we knew we could win. Unfortunately, fate was against us. I finally lost track of the goings on but do remember the final score – 17 to 16.

We lost the game, but won many memories of the day's activities and new friends – not to mention doing something for charity. Thanks to work by our publicity person, Denise D., we had a camera team from KPIX there, a photographer from the Examiner, and a photographer from a sports magazine..Our game was on the 11:00 news on Channel 5 that same Sunday night.

Our day's play brought us $75.00 for charity – thanks to some very generous people. Thanks all of you who helped!

LET'S DO IT AGAIN!!!!

Little People, Inc.

Stumps Stump San Diego in Softball

By Lino DeLena

Another first was scored by S.Q. when the "Little People" softball team came in and split a doubleheader against the D team from the Sports Spectacular series. Calling themselves "Stumps" and belonging to the Little People, Inc. (a nationwide organizaton), these midgets are one of only two teams known to exist in the nation. Playing with a fantastic sense of humor that quickly won the crowd, their hilarious antics not only confounded the opposition, but had the spectators roaring with laughter.

In the second inning, Steve Lee got on base, then stole second and third bases. A balk on the pitcher scored another run for the Stumps. Then "Papa" Carlino held the D team down by striking out Shorty Eads and Fred Carroll, keeping the lead with a score of 4-2.

STUMPS AND San Quentin softball teams pause before start of game.

First Game

The Stumps took an early lead, when ultimate pitcher Hackler had trouble adjusting to the unusual strike zone. Cheered on by the spectators, they turned three walks into runs, aided with a base hit by Bruce Johnson, then held the D team to two runs.

In the third inning, two walks, two hits, and seven stolen bases, carned four more runs for the Little People. But Diego came back with seven runs of their own to take the lead 9-8.

THE NUMBERS on their backs were no where near the size of their hearts.

In the fourth, the Little People were retired, leaving the bases loaded with no runs scored. Linsley, Chop, and Shorty brought in a run apiece for the D team, stretching their lead by three.

Visiting Steve Lee was again the only run scored, this time and J. J. Jones grounded out to the pitcher and Chop Wofford was picked off in a squeeze play to retire Diego with a scoreless inning.

The midgets exploded in the sixth with five runs, to take a temporary lead. Then Diego chalked up three when Hackler drove in Shorty and Carroll, with Bobby Mendes bringing in Hackler.

In the last inning, Jack Carlino got a base hit, then stole second and third. A base hit by Bob Burgan drove in the tieing run for the Stumps, but a double play stopped any further runs. Diego scored the winning run when Shorty got on base and Carroll drove him in.

Second Game

After a brief exercise period in the gym, the Little People came back to win the second game 15-9. Peter Norman and Ron Hackl scored the two runs in the first inning, with Bruce Johnson getting a base hit.

It was in the second inning that Steve Lee was stealing third and faked an injury. Bob Linsley stood by helplessly as Nino Carlino and Anthony Carlino went to his assistance. Players and spectators watched silently as the Little People picked up their injured teammate. With one assisting on each side and never leaving the baseline, they maneuvered him to within 10 yards of home plate where he zoomed across for a run. After everyone realized what had happened, belly-holding laughter and cheers poured forth from the fans.

Three more runs were scored before the side was retired, one of them when Nino asked the pitcher for the ball. Not having called a timeout, but the pitcher tossed the ball to Nino and watched it roll away as Nino let it by. Again, throwing the fans into a fit of laughter. Diego scored a single run to make it 6-1.

In the third, with bases loaded Andre Boursse got a base hit for the Stumps. The runner on third base ran to first, the one on first scrambled to third, Andre zoomed to second, and the runner on second scored a run. The infield players were left astounded and the laughter which ensued from the fans is undescribable. Four more runs were scored that inning, for an 11-1 tally.

Each team scored two runs in the fifth, and in the sixth the Stumps scored another run. Diego scored four, Parson Winn, Raunch Brewer, Brutus Williams, and Shorty.

In the last inning, the Little People chalked up one more and held the D team to two runs for a 15-9 victory.

Special thanks to J. J. Jones and the Diego team for the outstanding sportsmanship shown in both games, especially in the second one. Also, to the Stumps' manager Bob East, umpire Sammy Cruz and all who were responsible for making the event possible.
